

28 February 2022

Our ref LTA/CP(SW)/ C37.072.001/0000480

To: Residents/Stakeholders/Occupiers

Dear Sir/Madam

**CONTRACT J107 – DESIGN AND CONSTRUCTION OF JW1, JW2 AND VIADUCT FOR JURONG REGION LINE
– STRUCTURAL WORKS INCLUDING BORED PILING**

We would like to inform you that our main contractor, **CES_SDC Pte. Ltd.**, will be commencing the structural works (including bored piling) for the project. The location of the work area is shown in the enclosed Annex A.

These works will progressively start from the **last week of February 2022 till Q3 2022**, from 8.00am to 7.00pm (Mondays to Saturdays); subjected to site constraints and weather conditions.

The construction of the foundation structure involves bore piling, where we need to drill the ground to a specified depth before the pile is cast with concrete. This casting is a critical process as the pouring of concrete cannot be stopped and needs to be continuous until the required volume is reached in order to ensure safety and structural integrity. Therefore, we seek your understanding that some piling works may extend beyond the general working hours during the concrete pouring phase, especially when the volume involved is large.

As part of our continuous effort to minimize any disturbances and inconvenience to the nearby residents/stakeholders/occupiers, please be assured that extensive noise and dust mitigation measures are put in place. In addition, we constantly monitor the noise level to be within the permissible limit and will promptly install appropriate relevant mitigation measures whenever necessary.

Should you have further queries, you may contact our Project Public Relations Officer, Ms Wong Poh Yin at our project hotline number 9699 0107.

Your continued support for the Jurong Region Line Project is important to us as we work towards enhancing your travelling convenience and connecting you to places.

Thank you.

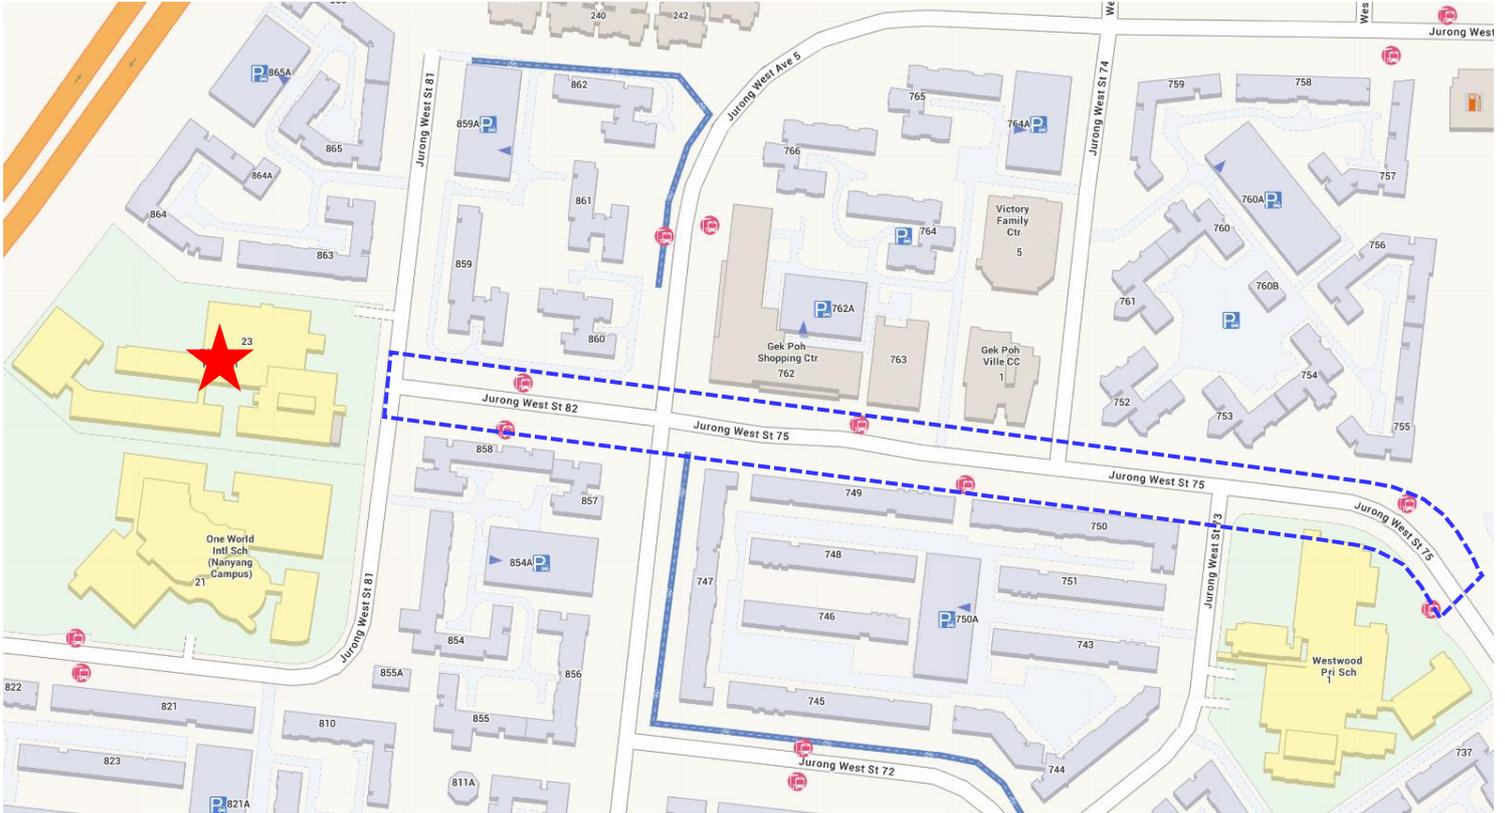

Yours sincerely

Goh Peishan
Manager, Community Partnership
