Our ref LTA/CP(SW)/C37.072.001/0000628

**To: Residents/Stakeholders/Occupiers**

Dear Sir/Madam

**CONTRACT J107 – DESIGN AND CONSTRUCTION OF JW1, JW2 AND VIADUCT FOR JURONG REGION LINE  
– CONSTRUCTION WORKS TILL Q3 2022**

The Land Transport Authority (LTA) has awarded Jurong Region Line (JRL) Contract J107 to **CES\_SDC Pte. Ltd.** for the design and construction of JW1, JW2 and viaduct.

We would like to update you the construction work activities under Contract J107 planned for Q3 2022 near the residential estates along Jurong West Street 75 and Jurong West Street 82. Both the list of works with the respective works schedule (Annex A) and location of the work zone (Annex B) are appended herewith for your reference.

Earth Retaining Stabilizing Structure (ERSS) is one of the activities that will be conducted to prevent the earth from moving downhill with erosion. As part of the ERSS, interlocking sheets are installed and pressed into the ground. This may cause some noise and vibration disturbances where mitigation measures are in place to manage them within the limits for the works. The general working hours is from 8.00am to 7.00pm (Mondays to Saturdays), subjected to site constraints and weather conditions.

Should you have any queries, you may contact our contractor's Senior Public Relations Officer, Ms Wong Poh Yin at our project hotline number 9699 0107.

We look forward to your continued support as we work towards enhancing your travelling convenience and connecting you to places.

Yours sincerely

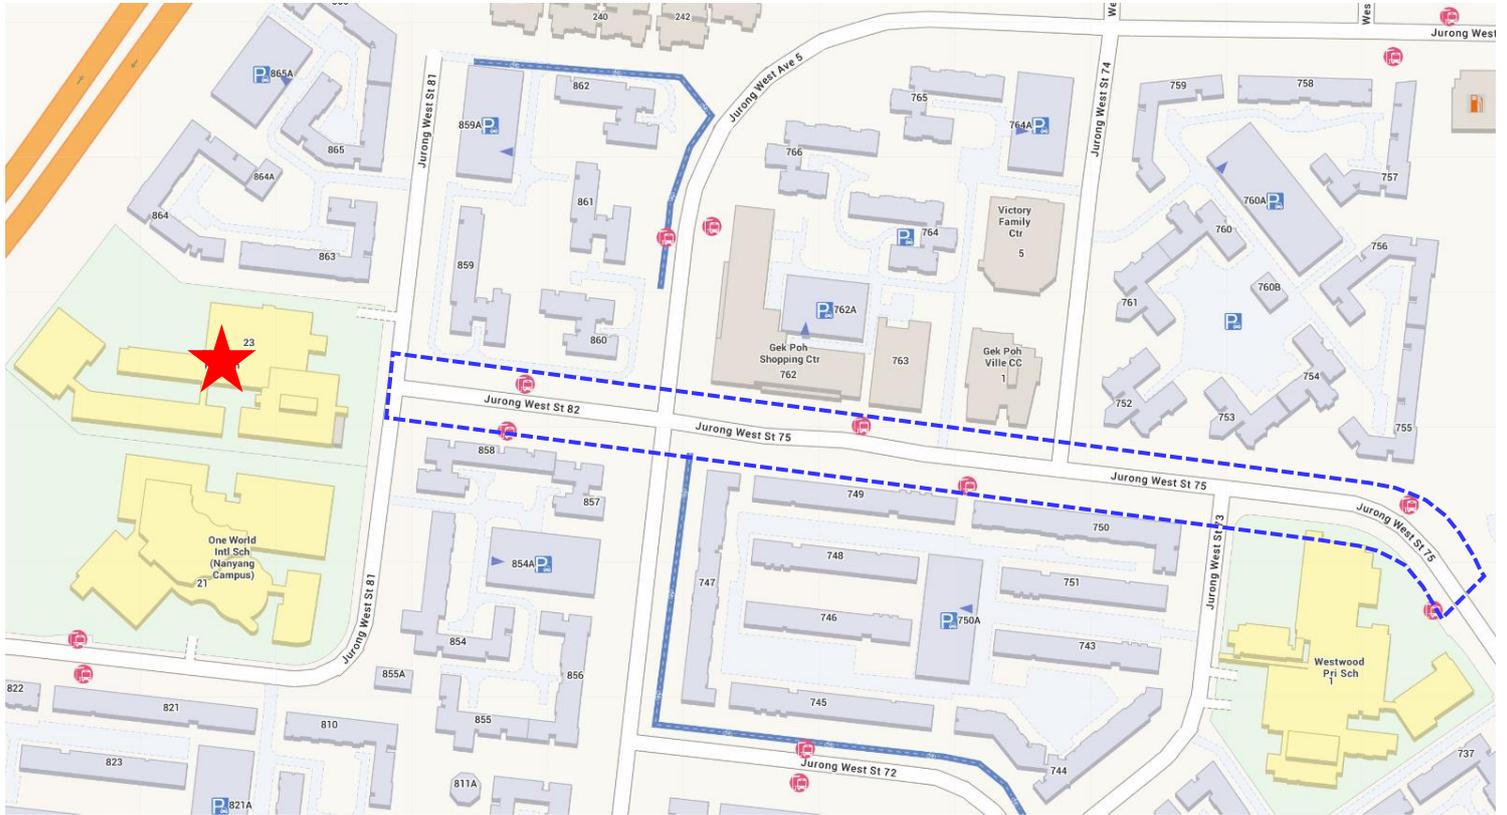

Goh Peishan  
Manager, Community Partnership  
QSMO, Community & Customer Engagement (QSC2)
