

Kerjaya Prospek JV Consortium Bags RM568 Million TNB Substation Contract In Terengganu

October 22, 2026

Kerjaya Prospek Group Bhd has secured a RM568.2 million contract from Tenaga Nasional Bhd (TNB) through a three-party consortium for the development of a major electricity substation in Paka, Terengganu.

In a filing, the construction group said its wholly owned subsidiary, Kerjaya Prospek (M) Sdn Bhd, had formed an unincorporated joint venture with Jati Tinggi Holding Sdn Bhd, a wholly owned subsidiary of Jati Tinggi Group Bhd, and Betapac Sdn Bhd to undertake the project.

The consortium, known as JTHSB-KPMSB-BSB Joint Venture, received the letter of award from TNB on Oct 21, 2026, and formally accepted the contract on Oct 22.

The project covers the development of a multi-voltage electricity substation designed to accommodate transmission and distribution infrastructure across voltage levels ranging from 500kV to 11kV.

Kerjaya Prospek said the project is expected to be completed within 24 months from its commencement date.

The contract will provide an additional revenue stream for the group over the next two years while strengthening its existing construction order book.
