The group has recorded lower revenue for the current quarter under review of RM2.7 million as compared to RM6.8 million for the corresponding quarter last year. There is a significant decrease in revenue of property division to RM0.9 million as compared to RM4.7 million mainly due to lower revenue recognised in the residential development project in Bentong that has entered the final stages of development during the quarter under review and is nearing completion. In addition, revenue was also affected by the soft property market especially in the Southern Region of Malaysia.

As for the manufacturing and replication of optical disc division, revenue recorded during the current quarter under review declined slightly to RM1.8 million compared to RM2.2 million in the corresponding quarter last year.

As a result of the lower revenue, the Group recorded a loss before tax in the current quarter under review of RM0.6 million compared to a profit before tax of RM0.2 million in the corresponding quarter last year.

Revenue for the manufacturing and replication of optical disc division has increased slightly from RM1.6 million to RM1.8 million as compared to the preceding quarter.
