The Group's revenue for the current quarter increased by approximately RM0.14 million or 0.57% to approximately RM23.90 million from approximately RM23.76 million in the corresponding quarter of preceding financial period. The RBD palm olein oil products contributed revenue of approximately RM23.76 million (or 99.41% of the Group's total revenue) and trading of third-party products contributed approximately RM0.14 million (or 0.59% of the Group' total revenue) respectively for the current quarter under review.

The Group's PBT for the current quarter decreased by approximately RM0.58 million or 48.13% to approximately RM0.63 million from the PBT of approximately RM1.21 million in the corresponding quarter of preceding financial period. The Group's PAT for the current quarter decreased by approximately RM0.41 million or 53.18% to approximately RM0.36 million from the PAT of approximately RM0.78 million in the corresponding quarter of preceding financial period. These decreases were mainly attributable to the lower gross profit as a result of higher average purchase price of the RBD palm olein oil products during the current quarter under review.

For the cumulative quarter ended 31 March 2026, the Group recorded revenue of approximately RM93.20 million, representing an increase of approximately RM3.14 million or 3.49% compared to approximately RM90.06 million in the corresponding period of the preceding financial year. This increase in revenue contributed to a higher gross profit of approximately RM0.33 million or 2.89%. A higher PBT of approximately RM2.72 million or 112.58%, and a higher PAT of approximately RM2.72 million or 249.46% was attributable to a lower administrative expense, improved overall profitability during the financial year under review, and the absence of one-off listing expenses amounting to RM2.26 million incurred in the previous corresponding period of the preceding financial year.

PAT	363,042	1,020,741	(657,699)	(64.43%)

The Group's revenue for the current quarter ended 31 March 2026 decreased by approximately RM0.43 million or 1.76% to approximately RM23.90 million from approximately RM24.33 million in the immediate preceding quarter ended 31 December 2025. This decrease in revenue was mainly due to the decrease in sales volume for the RBD palm oil products.

The Group recorded a decrease in gross profit of approximately RM0.15 million or 5.70%, and a decrease in PBT of approximately RM0.72 million or 53.64%. These decreases were mainly attributable to higher average purchase price of the RBD palm olein oil products in the current quarter as compared to the preceding quarter.

Similarly, the Group's PAT decreased by approximately RM0.66 million or 64.43% to approximately RM0.36 million from approximately RM1.02 million in the immediate preceding quarter, consistent with the decrease in revenue and gross profit as explained above.

B3 Prospects

The Board of Directors (“**Board**”) believes that the Group’s prospects in the RBD palm olein oil repackaging industry in Malaysia is favourable, taking into account the growth of the RBD palm olein oil repackaging industry in Malaysia.

According to the independent market research report by Providence Strategic Partners Sdn Bhd as disclosed in the Prospectus of Sik Cheong dated 19 July 2024 (“**Prospectus**”), the RBD palm olein oil repackaging industry in Malaysia is projected to grow at a compound annual growth rate of 20.9% between 2024 and 2026. This will be supported by the following demand drivers:

- (i) continuous demand for RBD palm olein oil products and its downstream products from consumers which will be driven by population growth, government subsidy programmes and initiatives and lower price and ease of accessibility; and
- (ii) growth in demand from hotel, restaurant and catering operators.

Collectively, these demand drivers are anticipated to bode well for the growth potential of the RBD palm olein oil repackaging industry in Malaysia.

Further, the Board is optimistic of the future growth of the Group in light of the following business strategies and plans:

- (i) expand the range of products to include high oleic soybean oil in the second quarter of 2026 after the rebuilding of a new packaging facility at No. 9, Jalan 6/14, Kampung Tasek Tambahan, 68000 Ampang, Selangor. According to the independent market research report by Providence Strategic Partners Sdn Bhd as disclosed in the Prospectus, the soybean oil market in Malaysia is projected to grow at a compound annual growth rate of 4.7% in terms of sales volume and a compound annual growth rate of 3.8% in terms of sales value between 2024 and 2026. The growth in demand for soybean oil is expected to continue to be driven by its relatively lower price as compared to other edible oils, i.e. olive oil, sunflower oil and rapeseed oil, which will render it an affordable option for households, hotel, restaurant and catering operators, and food manufacturers; its availability as it is one of the most produced oil globally and third most produced vegetable oil in Malaysia apart from palm olein oil and palm kernel oil; as well as the growing population and food and beverage industry in Malaysia; and
- (ii) grow its geographical reach to other states in Malaysia, particularly Perak, Negeri Sembilan, Melaka and Pahang due to the proximity of these states to Kuala Lumpur and Selangor. This strategy will allow the Group to tap into new growth opportunities beyond the current geographical market which are mainly in Kuala Lumpur and Selangor, and capture a larger customer base for the Group’s products.

B4 Profit forecast

The Group did not issue any profit forecast or guarantee during financial quarter under review.
