Area	Draft Received	New (unchanged – grey)
Vision	Malaysia's most trusted well intervention specialist	To build Malaysia's name as the home of the region's finest well intervention.
Mission	Reliable. Precise. Safety-first	To deliver well intervention services defined by three commitments: safety first without compromise, precision in every operation, and reliability our clients can build on, as we grow from Malaysia's best today, to the region's best in time.
Core Values / Principles	Integrity We operate with zero tolerance for bribery, corruption, and unethical conduct — in every interaction, at every level of the organisation.	Integrity Zero tolerance for bribery, corruption, and unethical conduct. We deal transparently, assess honestly, and stand behind our results.
	Safety No operation is more important than the safety of our people. QHSE is not a function — it is a core value embedded in everything we do.	Safety First No operation is more important than the safety of our people. QHSE is not a function — it is a core value embedded in everything we do.
	Excellence We hold ourselves to the highest technical and operational standards — because the wells we work on and the clients we serve demand nothing less.	Mastery We chose to be specialists. Depth of expertise, the right tool for each well, and the discipline to keep learning. That is what our clients hire.
	Accountability As a listed company and a PETRONAS-contracted specialist, we are accountable to our clients, shareholders, employees, and the communities we operate in.	One Team Our name travels on the shoulders of our field crews. We develop our people to world-class standards and grow together as one team.
